Preface

Dear Colleagues,

The 198th Falk Symposium in Shezhen, P.R. China will cover topics of recent development in inflammatory bowel disease. Unlike other FALK meetings in the past this meeting is unique in that it includes joint faculties from the Asia-Pacific and the European/American regions. Each session will be chaired by experts from both regions. The faculty represents a balanced panel of outstanding researchers and clinicians.

IBD is a global disease. In the past decade, a rapid increase in the incidence of IBD has been reported in several countries in the Asia-Pacific area. Genetic and microbial factors appear to differ between European and non-European populations. Nevertheless the clinical characteristics of the diseases, healthcare implications and medical needs of our patients are similar. Therefore, it is important to exchange experience and knowledge and to learn from each other. The organizers believe that this meeting with its unique concept and outstanding faculty will serve as a platform to exchange ideas and foster new collaborations and connections between the East and the West in order to advance our understanding and knowledge of IBD.

Poster Session

Posters will be exhibited on September 11-12, 2015 in the InterContinental Shenzhen. The authors will be in attendance during coffee and lunch breaks on both days.

Call for Posters

Please submit your poster abstract before April 30, 2015. Only one-page abstracts not exceeding 300 words, written in English and saved in Microsoft Word format will be accepted.

Abstracts must be submitted via our Internet Abstract Submission System (http://www.falkfoundation.org/poster) where further information regarding the submission format and the submission process is available.

The abstracts will be selected by the scientific organizers, preference being given to those thematically related to one of the sessions of the program.

The accepted abstracts will be printed and distributed to the participants of the congress together with the documents of the meeting.

The authors will receive notification about acceptance and further instructions in May 2015.
